

# Mark Nguyen

Full-Stack Software Developer

Hello there!

Hey Mark!!

## Experience

### Software Developer

1st Light Energy (Aug 2019 - Present)

- Developed and maintained Spring Boot web applications
  - End-to-end design and implementation of many features, both frontend and backend
- Creating and Managing APIs with AWS Lambda
- UX Design -- prototyping, storyboarding, presentation
- Regularly assisted employees through JIRA
- Development on Salesforce

### IT Intern

Christian Missionary Alliance (May 2017 - August 2017)

- Improved network speed and coverage
- Data migration between management platforms
- Research and inform business decisions

## Education

**Biola University | B.S Computer Science**

La Mirada, CA (2015 - 2019)

My goal is to work *with* people in order to help people! I have been described as well-rounded, reliable, and optimistic.

I would enjoy the opportunity to work with talented people to make high-quality software!

## Software Skills
